

AMENDMENT TO THE SPECIFICATION

Please amend the specification by marked up replacement paragraph(s) as follows.

Abstract

~~△ The present invention relates to a method and a device for simplifying the forming of game parties in wireless communication networks~~ is provided. ~~△ The present invention is based on generating a game directory~~ is generated comprising all available (multi-player) games on a mobile device and exchanging said information between different gaming devices. Said game directory is generated by querying a memory accessible by said electronic gaming device for electronic games available for execution on, and generating a game directory having entries for each electronic game which is determined. Said game directory is then exchanged to visualize all available games to all potential game partners.
